for COMMERCIAL USE

Continuous Operation for 24 hours

It's the first juicer of its kind that allows superior juice extraction of whole fruits, vegetables, and nuts for up to 24 hours.

Cold-Pressed Masticating System

The patented low-speed masticating technology cold-presses ingredients while preserving healthy nutrients.

Large Batches (40L / 1300 oz of apple juice per hour)

Its large capacity bowl handles many batches of juice and has a convenient smart cap to prevent drips and create mixed drinks.

Low-speed Gear Reduction Motor

The low-speed gear reduction motor powerfully operates while keeping the noise level and vibration at its minimum.
